Here are some previous responses that may be helpful in drafting your responses. The first document addresses Pavillion, the next one is a mix of issues. The second is a mix of issues but does include some responses to Inhoffe on the study and to Boxer on air issues.

Subject: SEPW QFR - USE this EMAIL for Your Responses

Hello Again,

Whew.. okay, potential nightmare avoided!

This is a copy of the message I sent yesterday but now to the correct distribution group (including some folks who are covering for the pocs). Please be sure to reply to all with your responses. Thanks for your patience.

One change has been made to the line-up: ORD is the lead now for #62. Also, Jeanne pointed out that it is important to recognize that the QFRs were posed in July and not recently as that could change our understanding of what the requestor was actually asking. For any questions on the timing of this effort please feel call me.

Attached are the SEPW QFRs I mentioned in my earlier email. OCIR is providing these to me to send out so your OCIR contact probably has not seen this request. In light of the rush and the need to receive very concise responses I have been asked to circulate these. Please be sure to copy everyone on this email with your response since some folks will be reviewing responses in parallel with me. Please submit your responses (by replying to all) as early as you can Monday afternoon but definitely by COB Monday in Times Roman Numerals 12 pt. I appreciate your assistance and apologize for the rush.

Below are the fracking questions to focus on along with my "best guess" as to the offices that should be the lead in preparing a response and the offices that should contribute pieces to be added to the lead response. Please take a look at the questions and let me know if I guessed wrong and the line-up needs to be changed.

Also, if the lead office would leave placeholders in their response I can integrate the non-lead office pieces into the lead office's response when everything arrives.

In addition, I have asked OCIR to identify previous responses that can address some of the questions but I won't see that until tomorrow and I didn't want to hold up getting this around. I will send that around as soon as it arrives. Again, thank you. Let me know of any questions, etc.

Mary

INHOFE #60 OAR (there is a broad reference to Utility Mact)

INHOFE #60a - ORD lead, OSWER, OAR, OECA, Regions 3, 6, 8.

INHOFE #60b- ORD

INHOFE #60c- ORD

INHOFE #61 - OECA lead, Region 3, 6, 8.

INHOFE #62 - ORD lead, Region 8

INHOFE #63 - ORD lead, Region 8

INHOFE #65 - OW lead, OSWER, Regions 3, 6, 8, OECA.

VITTER # 5 - OGC lead, OECA, Region 6
